

Conscription As It Affects Students

SELECTIVE TRAINING AND SERVICE

The following is a partial text of further statements upon conscription issued by President Karl T. Compton yesterday.

This issue of the Bulletin is given up largely to citation and discussion of those portions of the Selective Training and Service Act of 1940, formerly the Burke-Wadsworth Bill, that are of particular interest to institutions of higher education. These provisions with quotations from the Bill include:

Sec. 3 (a) All male students, except advanced ROTC students as noted below, who on the day of registration "have attained the twenty-first anniversary of the day of their birth and who have not attained the thirty-sixth anniversary of the day of their birth" must register.

Sec. 5 (e) Deferment is provided on the basis of dependents, physical, mental or moral deficiency and for "those men whose employment in industry, agriculture, or other endeavors, is found to be necessary to the maintenance of the national health, safety, or interest."

Sec. 3 (a) Any person between the ages of 18 and 36 shall be afforded an opportunity to volunteer for the period of training and service (12 months) prescribed in this Act.

Sec. 3 (a) Foreign students (male aliens) must register, but only those who have declared their intention to become citizens are eligible for service.

Sec. 5 (d) "Ministers of religion, and students who are preparing for the ministry in theological or divinity schools . . . shall be exempt from training and service (but not from registration) under this Act."

8. Sec. 5 (g) Any person "who, by reason of religious training and belief, is conscientiously opposed to participation in war in any form" is not required, subject to approval of his claim, to be subject to combatant service but is subject either to non-combatant service or to "work of national importance under civilian direction."

REGISTRATION—The President has set October 16 as the date for registration. It will be conducted by election officials or such other individuals as the county clerk may appoint for each election district. The county clerk may, upon the request of a school or college, appoint a special registrar to conduct the registration within such institution. The student may register at any convenient place regardless of legal residence or domicile. The county clerk will mail his registration card to the local selective service (draft) board having jurisdiction over the area which the student indicates as his place of residence.

CLASSIFICATION—Each student (as well as all other men 21 to 36) will be assigned a number and will be subject to call for classification. Prior to receipt of call he will receive a personal data sheet, one section of which provides for recording the individual's education and includes a specific question relating to attendance at school or college during the current academic year. If the student requests deferment and if his attendance during 1940 is verified by the college, his training may be deferred until July 1, 1941 or until the end of the academic year.

Activity Notes

The Tech Smoker

Various phases of newspaper work open to freshmen at Technology will be presented at a smoker given by The Tech in the Faculty Lounge of Walker Memorial on Tuesday, Oct. 8 at 5:15 P.M. Anyone interested in news, circulation, or advertising on The Tech should attend the smoker. The traditional cider and doughnuts refreshments will be served.

AES Smoker

The Aeronautical Engineering Society at Technology invites all members of the freshman class to a smoker to be held Tuesday, Oct. 8 in North Hall of Walker from 5-6 P.M. This meeting is intended to acquaint freshmen with the activities of the society and the opportunities to learn gliding at the Institute. Cider and doughnuts will be served to all present and colored movies will be shown.

WIMX Meeting

The Radio Society will hold its first meeting this afternoon at 5:00 P.M. in 2-390. The purpose of this meeting is to organize a code class and to plan an activity calendar for the year. All interested are invited to the meeting.

Catholic Club Smoker

The Catholic Club at Technology will hold a smoker in the North Hall of Walker Memorial on Wednesday, Oct. 9 at 5:15 P.M. to acquaint interested freshmen with the activities of the club. Those who have not joined may do so at that time. Refreshments will be served to all.

Menorah Society Meeting

On Thursday, October 10, the Menorah Society will entertain members and guests in the Faculty Lounge of Walker Memorial. The society's calendar will be made at this time. Refreshments will be served. All Jewish students are invited.

Harvard Again Outfoxed By Beaver Pranksters

A flustered Crimson football team walked over not one, but two, rivals in its first game of the present season last Saturday in the Harvard bowl, both literally and figuratively speaking.

When John Harvard's gridiron proteges romped out on to the playing field, they saw, not eleven menacing, scowling football greats, but three brown letters—M.I.T.—burned into the otherwise flawless turf by a band of Technology's loyal sons.

The M.I.T. jinx had some effect, however, for the Crimson had a tough time eking out a two touchdown victory over underdog Amherst.

Soph Committee To Discuss Dance

Thirty members of the Sophomore Dance Committee will meet with the '43 Class Officers this afternoon in Litchfield Lounge to formulate definite plans for the formal Sophomore Dance to be held Friday evening, November 22.

Those members of the committee chosen to work with the officers are Bernard S. Brindis, Charles F. Coles, Ernest C. Crocker, Jr., John M. DeBell, Jr., Warren E. Foster, James W. Goodhue, James T. Harker, Richard H. Haas, Charles A. Hathaway, Howard L. Heydt, John O. Karstrom, Jr.

Other members are William R. Kitzbridge, Warren N. Knauer, George C. Marakas, Christian J. Matthews, James O. McDonough, Thomas E. McGrath, Robert A. Metzger, Robert A. Nelson, John O'Meara, Hugh G. Pastoriza, Jr., Elliott C. Payson, Stewart Rowe, Burt C. Saer, Michael Salvatore, Robert J. Schaefer, Addison F. Schade, Douglas Scott, Walter G. Sutton, Jr., and John F. Tyrrell.

Catholic Club To Hold Dance

Machine To Be Used To Rate Conscriptability In Walker Next Friday

A "Conscriptability" machine designed to test the conscriptability of the guests will be shown for the first time at the Fall Acquaintance Dance to be held Friday, October 11, in Morss (Main) Hall of Walker Memorial.

The machine which determines the potential rank to be held by each of the male guests, A.C., (after Conscriptation) may also be used, after slight adjustment, to determine what rank the future hubby of the women present will have held.

Names on Request

Identification cards will be given to all the girls present, telling the name and college of the tagged. Further information regarding address and telephone number will be given upon request.

Over 400 girls from Wellesley, Radcliffe, Simmons, Emmanuel, Regis, Jackson, Emerson, and other schools have already signified their intentions of coming to the dance, according to John O'Meara, '43, chairman of the dance committee, and he expects even more acceptances before Friday.

Tickets for the dance will be on sale, from 12 to 2 every day in the Main Lobby. The price has been set at 75 cents per person.

Poll Of Students On Aid To England To Be Held Tomorrow

Technology Students May Register At M.I.T.

The following announcement regarding registration for conscription was received last night from the Registrar.

REGISTRATION UNDER THE SELECTIVE TRAINING AND SERVICE ACT OF 1940

By the authority of the Cambridge Election Commission, Technology students who cannot conveniently appear in their home precincts may register on Wednesday, October 16, at the Massachusetts Institute of Technology. Facilities for registering will be available from 7:00 A.M. until 9:00 P.M. on that day at a place to be designated later. All who can possibly register in their own precinct should do so.

In order that some of the questions regarding the Selective Training and Service Act of 1940 may be answered authoritatively, the American Council on Education has arranged a national broadcast, "Students and Military Service", Tuesday, October 8, from 10:15 to 10:30 P.M., E.S.T. It will be conducted for the purpose of answering specific questions of students and faculty members regarding the Selective Service Act and potential military training. The Boston radio station that will carry this program is WEEI.

The Tech Will Also Question Students On Far East Policy And Chances For War

With the conscription bill passed and the huge defense program getting under way, the future foreign policy of the United States has become the supreme national issue. To determine student opinion on some of the most pertinent problems, The Tech will run a poll tomorrow from 10 A.M. to 5 P.M. in the Main Lobby. The results of this poll will be published in the Friday issue of The Tech. The questionnaire, which may be answered by all Technology students, will contain the following questions:

1. How much aid do you think the United States should extend to Great Britain, assuming a continuation of the war? Check one:—
a) None at all.
b) Sell other than direct war materials (steel, etc.).
c) Sell everything for cash.
d) Sell everything on credit.
e) Send our navy and air force.
f) Go to war with all means at our disposal.
2. Do you believe the United States will fight with the British a year from now if the war lasts that long?
3. Would you approve of a declaration of war by the United States on Germany under any circumstances short of military attack on the Americas?
4. Do you believe the United States should go to war against Japan, if Japan attempts to annex—
a) The Dutch East Indies?
b) The Philippines?

Oscar Chastises Class Of 1943 For Cockiness

More Spirit Demanded For Sophomore Unity In Field Day Sports

"If the class of '43 doesn't lose some of its typical Sophomore cockiness, and get down to work in their practice for Field Day, there's liable to be a surprising upset," stated Oscar Hedlund, track coach, at the first Field Day Rally of the Sophomore class, held last night in Huntington Hall.

Oscar asked for more candidates to turn out for the teams so that they can get plenty of practice working together. He also said that more men should turn out for all the teams and show the freshmen what real class spirit is.

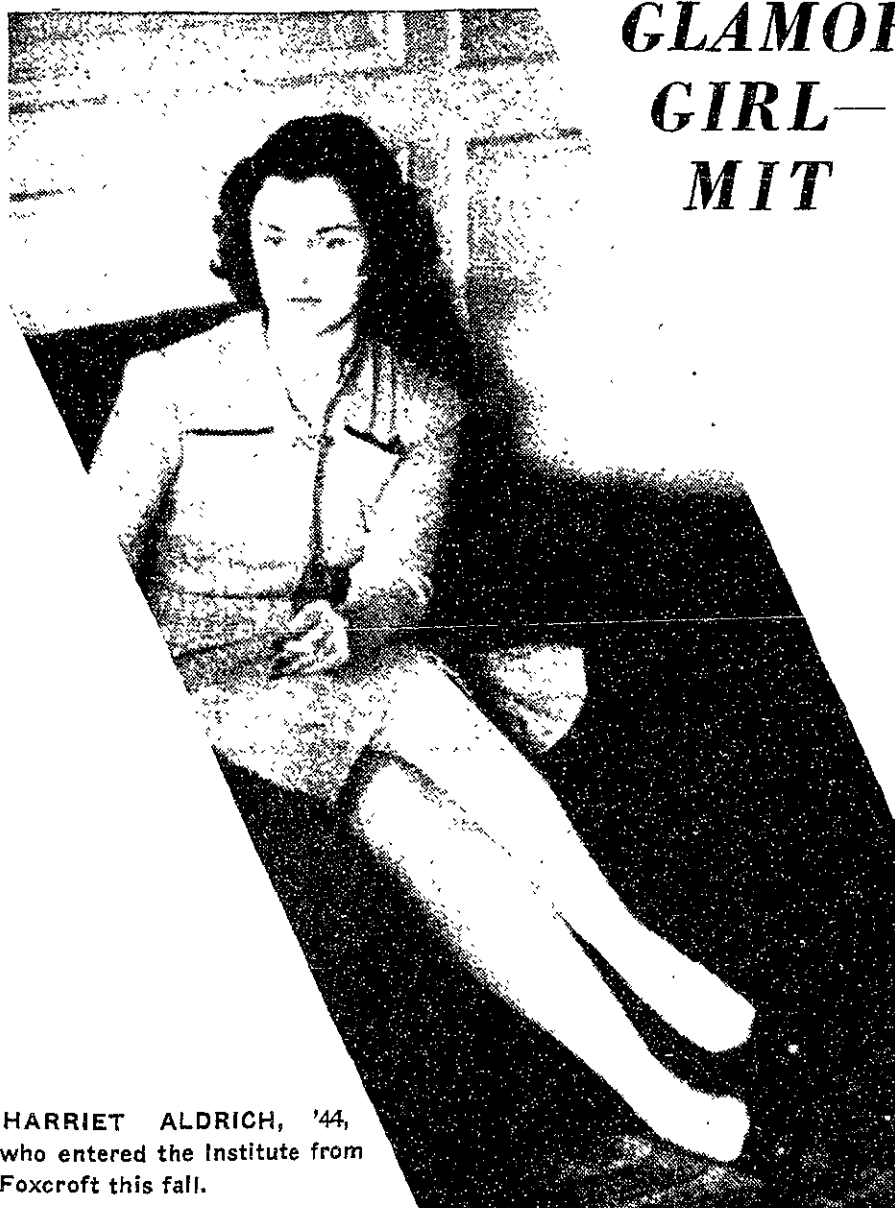

Football Turnout Good

John F. Sexton, '41, football coach, told the Sophomores how their team is progressing and said that much better class spirit prevails this year than last year, which has been shown more by the football team turnout than by anything else.

Horace J. (Cap) Adelson, '41, coach of the tug-of-war team asked for candidates to turn out for the first practice to be held this afternoon on Briggs Field. Turnouts for the dinghy team are very good, according to Robert S. Reebie, '43, Sophomore President, and hopes run high as to their invincibility.

Reebie also requested that any cheerleaders or potential lyric-writers of class songs should communicate with him before the next rally to be held on Tuesday, October 29.

GLAMOR GIRL—MIT

HARRIET ALDRICH, '44, who entered the Institute from Foxcroft this fall.

Harriet Belittles Voo Doo's Blast, Claims Men Dress Worse Than Coeds

"I'm at Tech", explained Miss Harriet Aldrich, '44, last night, "because I want to get the best possible scientific education." The New York debutante, who is enrolled in the five-year course in Biological Engineering, added, however that her uncle, a Tech graduate who is now an architect in Brookline, recommended the Institute as being far superior in laboratory facilities to any women's college.

Four years at super-exclusive Foxcroft, Virginia Boarding School, have convinced the daughter of Chase Na-

tional's prexy that living at home has very definite advantages—particularly when one likes football weekends. Therein lies another reason for Harriet's presence among us—the fact that attending M.I.T. enables her to live with her uncle at Brookline.

Leukemia Research

If you should happen to see Tech's most-talked-about coed driving that black Plymouth convertible (License MA 20, New York); just remember—

And It Ain't Saturday

athletic squads. The doctrine of sports participation at the Institute, the oft-heard "not to win, but to play the game," has sometimes been said to typify the whole undergraduate spirit at Tech.

Freshmen could do little better in their first few weeks at the Institute than come out for a sport. The cry of the coach or the coxswain should be much more attractive to the new man than the staccato "One, two, one, two" of the P. T. instructor.

JOURNALISTIC JOY

Literary would-be's, aspiring cartoonists, photographic bugs, ad-sellers, bookkeepers, and associated glamour boys, are respectfully asked to come to the grand and munificent The Tech smoker *today*. Your paper would like to meet you. At the same time you can have your fill of cidah, doughnuts and weeds.

The mad whirlwind of social events has barely begun for members of The Tech. Join now and cash in later on beer parties, banquets, bowling parties, picnics, and Dato knows what. The Faculty Lounge will provide the setting for today's glorious smoker. Come one, come all.

Warning

Do not be hoodwinked by the nefarious propaganda of other publications.

THE READER SPEAKS

Dearest Editor,

The Tech's sports writing appears to be more inaccurate, inefficient, and misrepresentative than ever. To quote the beginning of a story in The Tech of October 1, 1940.

HUNN SMASHES HIGH JUMP

RECORD AS SIXTY-NINE

FIRST-YEAR MEN COMPETE

Hunn stole the spotlight when he jumped nineteen feet four inches to break the all-time Frosh Camp record in that event.

Ye gods and little fishes! Is Hunn Clark Kent? A high jump of nineteen feet four inches positively break's all existing and non-existing world's records. Grab him for the Olympics before Tech life spoils his incredulous strength and control.

A friend of mine remarked that a normal human being would have to be on the eighty-eighth satellite of Saturn to be able to jump that high.

—F. D. R.

Lamb were nominated.

Those nominated for officers were: Mr. Henry S. Thompson for President; Mr. Austin W. Scott for Vice-President; Mr. Walter Humphreys for Clerk (Secretary), and Mr. Horace S. Ford for Treasurer. The nominations for directors were: Delma Leighton, Alfred C. Redfield, Ralph E. Freeman, and Carroll L. Wilson from Technology at large; Stanley F. Teele, Kenneth B. Murdock and William M. Folberth, '41, from Technology students; David D. Henry, '41; John Balentine, '42, and George Putnam, '43, of Harvard.

Ink Capacity**

is just like money in the bank
When You Need It!

And Its Lubricated Point
Writes "as smooth as oil"

GUARANTEED for LIFE
by Parker's Blue Diamond

What's the use of being a quick-thinker if your pen won't work when your brain does?

A college professor found that this gets many a student down. So he invented a brand-new way of filling pens—a way that makes more room for ink **INSIDE** by dispensing with the customary rubber ink sac.

Parker spent 5 years to engineer this revolutionary principle to perfection—this sacless "One-Hand" Filler—the Parker Vacuumatic—the largest selling pen in the world today.

A pen that holds nearly twice as much ink as our old style, and shows days ahead if it's running low, so it won't run dry. Whose lubricated 14K Gold Point—non-brittle, extra resilient—is tipped with Osmiridium so smooth and hard and dense that it *won't wear scratchy as long as you live!*

And its crowning glory is that streamlined Pearl and Jet style—laminated, *Ring upon Ring*, as shimmering as velvet—wholly smart, original and exclusive—winner of the Pen Beauty contest.

Go and see it and try it—don't make the mistake of writing "the hard way" throughout your college course and life's career.

"HANDS ON HIPS!"

Freshmen at the Institute sometimes have difficulty in believing that it is to their benefit to enlist under the banner of some Technology activity. From the time they hit Freshman Camp they consider student leaders' cries to "Come out for an activity!" as well-intentioned, but a bit rash. New men, without a doubt, would all *like* to be working with other men in some activity, but hesitate because of the threat of academic failure. They figure that flitting around some publication's office is o.k. for the other freshmen who are probably brighter than they, but they'll just play it safe and see how things go for a time. The time and effort, they think, which they would spend with an activity might provide the margin of succeeding or failing at the Institute.

Whether or not the benefits received from participation in an undergraduate activity at the Institute merit the time such participation requires (and it is our opinion that they do), there is one way in which freshmen can engage in an activity and still not spend an undue amount of time outside of purely academic work. The way is to substitute a sport for the required P. T.

There are three reasons why a new man should get into an athletic program at the Institute. In the first place, he will be supplementing his school work with an undergraduate activity as suggested before; he will be "in" an activity.

Secondly, he will aid the Institute's athletic program. A squad's success is dependent to a great extent on the number of men on it. Dummock or star, another player of the game is an asset to the sport.

Third, participation in a sport is good practice for Field Day, now just over three weeks away.

And last of all, there are few places where the spirit of Technology can be absorbed more quickly than with one of the school's

Football Team Plays Hyannis On Saturday

First Game Of Season Promises Good Scrap With Teacher's College

M.I.T.'s first venture into intercollegiate football for many years will be a stiff one this coming Saturday afternoon when the Beaver Junior-Senior team will meet the Massachusetts State Teacher's College at Hyannis.

Lacking only capable reserves, this squad has exceptional promise. Sergeant George C. Hunt, coach of this year's gridiron hopefuls, as well as the managers and players, all appeal to the two upper classes to turn out in numbers for the team. Around the present nucleus of veterans Sergeant Hunt hopes to build up capable substitutes for reserve strength.

Late Start for Team

Practice began rather late in the season for the squad, but a snappy program of calisthenics is swiftly ironing out all signs of sluggishness. Big Mike Hooke, who transferred to Tech from William and Mary, is giving the team the benefit of experience picked up at W and M by leading the candidates in stiff calisthenics.

Coach Hunt has not as yet called for any extensive scrimmaging, preferring to concentrate on blocking, tackling, and walking through plays. Joe Bowman has been working on punts for a week now and has consistently sent booming fifty and fifty-five yard boots down the field. Good kicking, some excellent passing by backs who graduated from last year's winning Sophomore eleven, and several speed merchants give promise of a well rounded backfield.

With Mike Hooke heading the forward wall, prospects seem bright for a fairly rugged line. Several of last year's sophomores have stepped up to more than fill the gaps which remained to be plugged.

Soph Tug-of-War Men To Start Practice Today

The Sophomore class tug-of-war team will meet for the first time this year when Cap Adelson, the new coach, calls a meeting of all interested tonight at 5:00 P.M. on Briggs' Field.

In view of the late beginning made, the team will have to work hard to get up level with the freshmen, but will have the advantage of experience. A big turnout is expected by the coach, among whom should be many of last year's frosh team members. All who intend to turn out are urged to do so at the earliest possible time, as mentor Adelson intends to teach them a new system of pulling.

Members Of Beaver Key To Hold Meeting Today

Members of Beaver Key honorary Junior society will meet for discussion of events and policy in 10-200, at 5:15 P.M. this afternoon. Another meeting of the athletic chairmen from the dormitories and the athletic chairmen from the various fraternity houses will be held in the Institute Committee Lounge in Walker at 5:15 o'clock Wednesday afternoon.

A new policy of the society this year will restrict the number of tournaments to be held so that more work might be done on, and more men might turn out for, these tournaments.

Swimming Team To Stage Rally In New Tech Pool

Members Of Varsity Will Give Exhibitions Of Swimming And Diving

With a large and promising squad out for the sport, the swimming team will hold its first meeting of the year in the gallery of the swimming pool on Wednesday, October 9, when a rally of all interested in swimming will be held.

A swimming and diving exhibition will be given by members of the varsity team at the time. All interested are invited to attend; but the audience will be restricted to men only.

Three Veterans Lost

Only three of last year's swimming team have been lost: Schuler, Wheeler and McAvoy. All of these were good men and will be missed, but it is believed that there will be many out to take their places. Dave Howard, last season's New-England diving champion, and John Sexton, a veteran on the team, will both be back.

Many good men will be coming up from last year's freshman ranks, outstanding among them Tiedeman, star 50 yd. dash man. Among the divers from last season's frosh squad will be Reebie and Karstrom, both of whom should ably back Dave Howard and his associates.

Coach John Jarosch has expressed a desire to make the personal acquaintance of all men, varsity and freshmen, who intend to come out for the team, any day Monday through Friday, 4.30 to 6.30 P.M., at the new pool.

Dave Howard Elected M. I. T. A. A. Executive

David T. Howard, '41, was elected member at large of the Athletic Association Executive Committee at a meeting of the Athletic Association held in Walker on Sunday afternoon.

Dave Howard has long been an outstanding member of Technology's swimming squad and is captain of the team for the present season. He is also the present holder of the New England Intercollegiate Diving Championship.

'43-'44 Teams Start Practice

Sailing, Tug of War, And Football Coaches Pointing For Nov. 1

Preparations for the annual freshman-Sophomore rivalry on Field Day Nov. 1 are well under way according to announcements from coaches of both classes.

Richard P. Knapp, '41, mentor of the freshman sailing team expressed enthusiastic confidence in the "frosh" chances of sailing away with this Field Day event as part of the fifty-five men who had volunteered for the team finished two hours of practice on the windy Charles last night.

Sophomores Hold Meeting

Many experienced racing skippers of the Association, however, were present at the first sophomore race team meeting in the Commodore's room of the Sailing Pavilion Monday evening. Franklin W. Kolk, '41, and Eric Olsen, '41, coaches of the "soph" team have laid plans for an intensive period of training and neither seemed unduly worried by Coach Knapp's exuberance.

In the field of muscle and brawn, "Cap" Adelson, '41, counsellor of the Sophomore tug of war team called for members of last year's winning team to report for practice meeting this afternoon when details of the '43 plans for this event will be laid out.

Frosh Tugsters Show Promise

To oppose the '43 tugsters Bob Greenes, '42, is whipping a freshman team into shape from more than 25 men who reported for the first day's practice. With the kinks ironed out, their prospects for defeating the sophomores are bright according to mentor Greenes.

On the gridiron Sophomore coaches are especially confident of an easy victory over their underclass rivals. Over thirty-five men have reported to the staff of coaches which includes John Sexton, '41, Bill Cadogan, '41, and Frank Storm, '41. Line Coach Storm has several experienced men in his line and reports indicate that the "sophs" possess a star of exceptional merit in a certain transfer student who, it is rumored, has had extensive experience at another school.

Net Tournament Begins After Lots Are Drawn

Lots have been drawn and the various men who signed up for the tennis tournament have been bracketed ready for the initial rounds.

Altogether 61 upperclassmen and 32 freshmen have signed up for the tourney to date. The games will be played on the knock-out system, that is, once a man has lost a match, he is out of the tournament. Six rounds will be played in the upperclass tournament and five in the frosh.

M. I. T. Bootmen Start Practice For First Game

Absence Of Coach Goldie Slows Specialised Practice For First Game Saturday

Serious practice by Technology's soccer team is underway this week in anticipation of the game Saturday, October 12, with Brown University. With forty men turning out the team hopes to start a successful year by taking this early game.

The frosh team has announced its first meet with Governor Dummer on October 26. Twenty men have turned out so far for the freshman team, and they have put in some good practice already.

Practice has been limited mostly to scrimmaging to date, due mainly to the absence of Coach Malcolm Goldie, but it is hoped that more specialized training particularly in combination play will begin soon. Uniforms will be issued at practice this afternoon to those most likely to make the team, and this should raise enthusiasm in both teams.

Only three men are missing from last year's varsity team and there are plenty of '43 men up to fill in the empty berths.

Debutante

(Continued from Page 1)

that she is working at the Institute with the hope of eventually doing research in connection with cancer and leukemia.

Naturally, Harriet likes dancing and parties, but has resolved to confine these extra-curricular activities to weekends and vacations at present. She "adores" the rhumba, but likes to waltz only if there are no other couples on the floor.

Mother's Advice

When approached on the subject of "Tech men", Harriet told your reporter of the advice her mother had given her before she left New York. Much to the starchy-eyed brunette's surprise, Mrs. Aldrich had confined her remarks solely to an explanation of how football is played.

Further query, however, led to comment that Tech men were very nice about carrying books and picking up her glasses case, which she continually drops. "But their clothes", she exclaimed, "They're just one point worse than that coed attire as described in the last Christmas issue of Voo Doo" (The sample copy sent to freshmen).

Derides Voo Doo

Winthrop Aldrich's daughter then addressed an open appeal to Voo Doo to refrain from making any more

cracks about coed clothing until it had straightened out the men's clothes situation.

That a wager of any type had prompted her to join the Beaver ranks, was strenuously denied by the seventeen-year old debutante. Incidental to her enrolling at the Institute, however, she did have three small bets. The first, with a deb friend, on the issue of her being admitted put her \$100 to the good.

Fund for Harvard Bets

"This sum will constitute a trust fund", she added, "as insurance against wagers of \$75, that I will last for two years, and \$25, for four years." Both of these bets were made with Harvard boys; hence, we believe we are safe in saying that all good Tech men will back Harriet solidly with the hope of seeing some of our friends "up the river" lose their money.

Although she is strictly a Willkie supporter, Miss Aldrich does not think at the moment that Wendell L. can be elected. Our most attractive coed in many years is also much concerned with the international situation. In fact, she has already written an editorial about Hitlerism which was published by the New York Herald Tribune. In it she contended that the lowering of standards necessitated by a totalitarian Germany would bring about eventual collapse of the Hitler regime.

Frosh To Select Council Members Next Monday

Members of the Class of 1944 will elect their representatives to the Freshmen Council on Monday and Tuesday, October 14 and 15, Wilson Compton, Jr., '41, of the Elections Committee, has announced. Nominations are to be made Thursday and Friday, October 10 and 11.

One representative and alternate will be chosen from each freshman section. The section leaders will then meet to elect a secretary and two others of their number to represent the class on the Institute Committee.

Ernest F. Artz, '42, vice-president of the Junior Class, has charge of the Council. In his absence, however, the secretary takes command of the group.

Representatives of the Election Committee will visit each section to take nominations and will return on Monday and Tuesday to conduct the balloting.

Frosh To See Movies At Outing Club Smoker

The M.I.T. Outing Club will meet for the first time this year on Wednesday at 5:00 P.M. in Room 1-390. A special program has been arranged for the benefit of any interested newcomers.

Moving pictures and still photographs depicting the club's activities of past years are to be presented. Future plans will be outlined while cider and doughnuts are served.

On the following Sunday, October 13, Walter H. Lob, '41, will lead a bicycle trip in answer to the requests of a number of members.

Annual Field Day Dance Options On Sale Today

The sale of tickets for the Annual Field Day Dance will start today instead of Monday as previously announced. The options may be purchased from 12 to 2 in the Main Lobby and from the "Men in Top Hats" around the building.

The options for the dance will sell for \$2.25 instead of \$2.00 and will be redeemable during the week of October 28 for the same price. Jan Savitt will furnish the music for the formal and the entire facilities of Walker Memorial are being made available.

Conscription

OTHER MILITARY AND NAVAL SERVICE

A student who is a member of unit of the National Guard will be subject to the requirements for duty of such unit and does not come under the potential deferment clause of the Selective Service Act.

A student or faculty member in the Officers' Reserve Corps, although he would not come under the provisions of the Selective Service Act, may be selected on an individual basis for active duty as military needs and the circumstances of the individual may justify.
